Profile

I am a UX Designer with 8 years of experience in delivering user-centered, intuitive digital experiences. Passionate about solving problems through user-friendly designs that meet user needs and expectations, and make everyday experiences easier and more enjoyable.

Core Skills

Tools: Figma, Adobe XD, Miro, Photoshop

UX Methods: User Research, Wire-framing, Prototyping, Usability Testing, Heuristic Evaluation

UI Design: Responsive Web Design, Design Systems, Mobile-first Design

Technologies: HTML, CSS, SCSS

Work Experience

UX Lead - 99X - (2017 - 2025)

With 8 years of experience, having grown from an intern to a UX Lead and specialise in user-centered design, from research and discovery to final hand-off.

Projects

BUS AS

Scandinavia's largest automotive supplier of software solutions for vehicle trade-in assessments.

Tools: Figma, Adobe XD, Miro

Technologies: HTML, CSS, SCSS

Oscar inspector

Vehicle error prediction report generation, analysing and using car info over 3 decades.

Tools: Figma, Miro

Key responsibilities

- Work closely with clients and cross-functional teams to understand user needs, business goals, and technical constraints.
- Translate user requirements into intuitive and user-centered design solutions.
- Create personas, journey maps, wireframes, and interactive high-fidelity prototypes that align with the client's objectives and brand guidelines.
- Collaborate with developers to ensure seamless integration of UI/UX designs into the final product.
- Contribute to and maintain scalable design systems and component libraries.
- Ensure that products follow accessibility best practices.
